

Precautions on the day of the 2nd JLPT in 2023

Before taking the test, please be sure to check "Precautions when taking the Japanese-Language Proficiency Test" and please be especially careful of the following four points.

1. About improper behavior of using electronic devices*

In the test room, using electronic devices is prohibited both during the test time and during breaks. Please do not bring any unnecessary electronic devices to the test site.

In JLPT, the handling of cheating about the electronic devices is as follows.

*Electronic devices: mobile phones, smartphones, smartwatches, etc.

Yellow Card (caution)

During the time allocated for instruction of the test (all section),

- ① Allowing your electronic devices to sound (ringing, silent mode vibration, or alarm) or the chime or alarm of your watch to sound
- ② Using your electronic devices

Red Card (disqualified and dismissed)

Between the beginning of answering the test and finishing to check the answer sheet and question booklet by the proctor (all section),

- ① Allowing your electronic devices to sound (ringing, silent mode vibration, or alarm) or the chime or alarm of your watch to sound
- ② Putting your electronic devices out on your desk, wear them, or use them

2. Improper behavior

In JLPT, if we identify examinees engaging in severe improper behavior such as stealing test booklets, recording, or leaking test content, we will report them to the police for charges like falsification of business interference.

Furthermore, if for any reason the organizer determines that the validity of a examinee's score is questionable, JEES may invalidate your test score, not notify your test result, or prohibit you from taking the JLPT in the future.

Details about improper behavior are provided on the JLPT website under "Precautions when taking the Japanese-Language Proficiency Test" section (7) and (8) of "3. Test precautions on the day of the test". Please be sure to read this information carefully.

3. About using the parking or bicycle parking lot

We have received complaints that examinees who park their bicycles / cars on the streets or to the facilities nearby the station and test sites, are obstructing traffic and preventing users of the facilities

from using the parking. Please use public transportation to come to the test sites. When you park your car or bicycle at the nearest station, please be sure to use a public parking, and do not park in the parking of nearby facilities or on the street illegally.

4. About smoking in and around the test sites

We have received complaints about smoking from the test sites and its surroundings.

Do not smoke in test sites where smoking is prohibited, on the streets, or in nearby facilities. Also, please do not smoke except at the specified places, even in the test sites where smoking is allowed.

If the above manners are not observed, the applicant may be denied taking the test. In addition, there are cases where the above-mentioned problems may make it impossible to rent a test site. In such cases, we will have no choice to rent a test site in a distant location, which may cause inconvenience to examinees.

We appreciate your understanding and cooperation.
